

# EM-X11 Fully Rugged Tablet Notebook

## Product Features

### Windows system, Intel Kabylake 7Y30 chip, large storage space

Support Windows10 Home/Pro/IOT system, enhanced security and easy operation;  
Adopt new Intel Kabylake 7Y30 processor, the performance is greatly improved, and the work efficiency and performance are optimized;  
128GB/256GB/512GB SSD, data reading speed is fast, Positive response.

### IP-65 protection grade, large capacity, wide temperature dual cell design

IP-65 high protection grade, industrial grade rugged rating, meet the standard of MIL-STD-810G shockproof, perfect application in a variety of complex harsh working environment;  
EM-X11 is equipped with 5000 mAh battery, 6300 mAh battery can be equipped with a keyboard plug replacement, wide temperature dual battery protection, improve machine endurance to 12~15 hours, to ensure the long time continuously work.

### Magnesium alloy and industrial plastic parts perfect combination, two-color mold design, ergonomic handle and keyboard

EM-X11 internal host adopts magnesium alloy bracket, heat dissipation fast, light quality, good rigidity, strong shock resistance; appearance with aluminum alloy die-casting molding, high strength, not easy to deform;  
Double color mold design, offers a premium touch feeling;  
The handle and keyboard are ergonomically designed to enhance the user experience.

### High strength Corning gorilla glass, with the original handwriting pen

EM-X11 is equipped with the third generation of Corning gorilla glass, more than 7h hardness, increase 40% toughness;  
The machine comes with standard handwriting, stylus, and handwriting input.

### Barcode scanning, fingerprint identification and other functions, free collocation

Support 2D barcode scanner, fingerprint identification, rapid acquisition;  
Support RJ45 network port, standard DB9 serial port (RS232, RS485) and other serial ports.

### Dual GPS optional design, Dual frequency WiFi

Support ublox GPS high-precision positioning, matching Beidou Positioning System, support dual positioning system, positioning more accurate.
